Steamboat Willie

Without a doubt, Disney's 1928 cartoon *Steamboat Willie* represents a series of cultural and historically significant firsts: the first cartoon with fully synchronized sound, the first fully post-produced soundtrack, among the first films ever to be storyboarded and finally distributed and the first public appearance of the cheeky mouse that would go on to become one of the world's most beloved personalities.

All in all, *Steamboat Willie* was a groundbreaking achievement in the world of motion pictures...

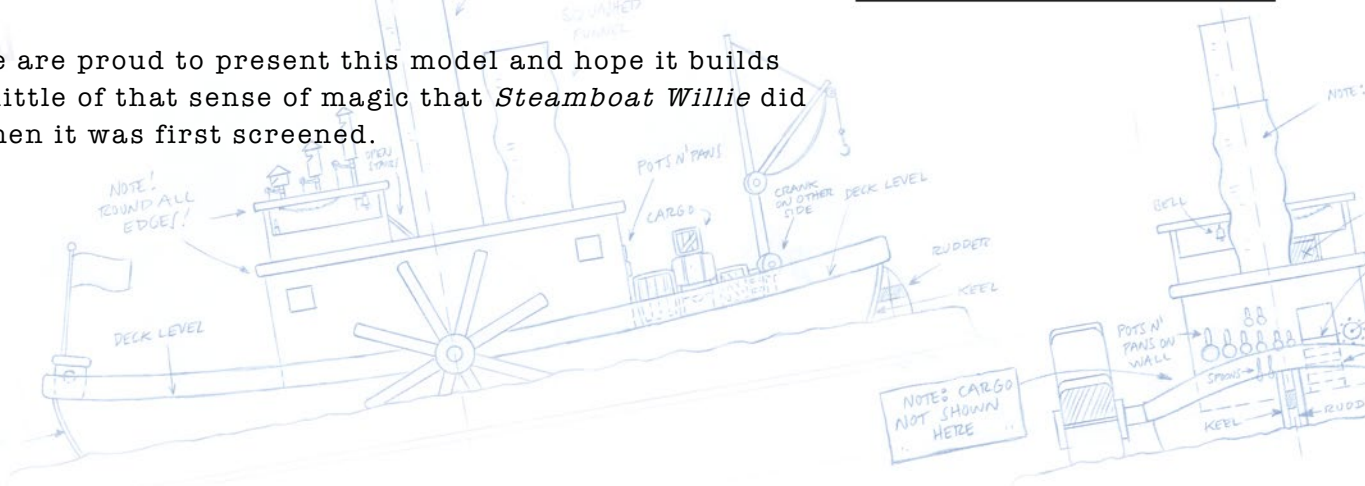

But more than that, this short, black and white cartoon represents Walt Disney's creativity and determination; two qualities that are also embedded in the ethos behind LEGO® Ideas.

Disney was convinced that sound would bring a real sense of magic and humor to the cartoon...and it truly did. His sense of storytelling and drive for technical innovation prevailed and led to International fame for both Walt Disney and Mickey Mouse. 90 years later, The Walt Disney Company still represents the world's best storytelling and innovation in animation.

We are proud to present this model and hope it builds a little of that sense of magic that *Steamboat Willie* did when it was first screened.

Máté's

Meet the Designers

Máté Szabó Fan Designer, Budapest, Hungary

Máté is a professional animator who loves to shoot and make videos and of course, LEGO® creations. See his Instagram feed: @szabolego.

"I loved playing with LEGO bricks as a child and still love the way the system works. It teaches me so much about thinking in a greater context.

I am inspired by Disney characters, cartoons and movies and wanted to pay my respect to the brilliant artists who create those masterpieces. When I saw the classic Mickey Mouse from the Disney Minifigure series, I started thinking about *Steamboat Willie*.

When creating the model, I re-watched the short as many times as I could and searched for layout drawings for accuracy. But I also had to reduce the number of elements in the model and make it more simplistic too. The most difficult part was the hull of the boat, where I tried to make it as round as possible. It took about 3 months to complete the model, working on it a couple hours in a day.

It was an amazing honor to reach the magic 10,000 votes. The hardest part came after the 5,000-vote milestone. It was a real push because we only had 44 days before the deadline. I really want to thank everyone who was involved.

To those in the LEGO Ideas community, my advice is to be yourself and create something that you're interested and love. That's it."

John Ho, LEGO® Designer

“I watched *Steamboat Willie* at university and was amazed by the fact that it was the first Disney cartoon with synchronized sound and Mickey Mouse’s first appearance on screen. I hope to bring that moment of amazement and wonder to everyone who builds this model.

My job is to translate the great LEGO® Ideas fan submission into a great LEGO product with an enjoyable building flow, unique details and fun play experience. So many details of the Original are creatively represented in this model. The challenge was keeping those great details, while adding in a function. It is so fun to push the model around and see the paddles and smoke stacks move!

Steamboat Willie is a hugely important landmark in the history of Disney animation, so representing it in LEGO bricks was an honor that made every work day feel unique and special.”

Crystal Bam Fontan, LEGO Graphic Designer

“*Steamboat Willie* is such a timeless classic and Mickey will always be a fan favorite so to be a part of the development of this set was a huge honor!

As a LEGO Graphic Designer, my job is to try and fulfill the Fan Designer’s dreams, as much I can achieve through graphics. Máté Szabó really managed to add a lot of detail to his submission.

With this set we added Minnie and the multiple decorated elements. The most challenging part was to make the Mickey and Minnie minifigures really stand out since they are the main characters. I decided to add some extra vivacity with silver details on their accessories and on the *S.S. Willie* to give it that extra pop! As a fun Easter egg we featured the goat from the short as part of the decorated music sheet element.

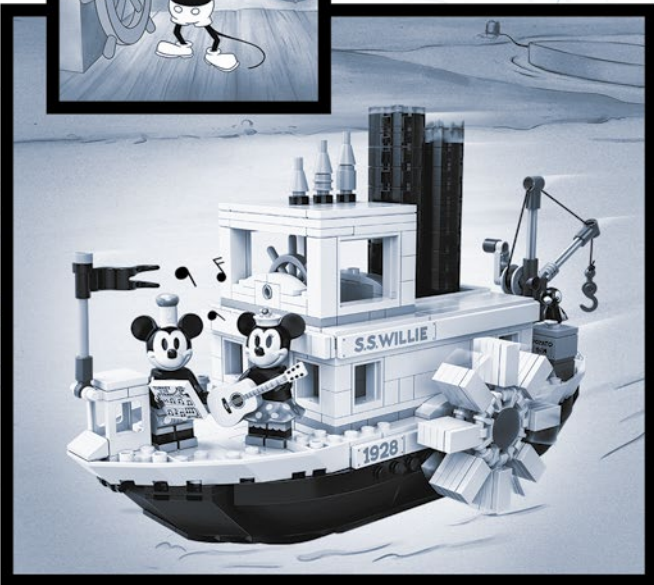

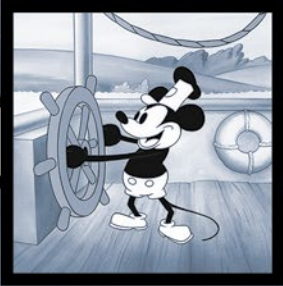

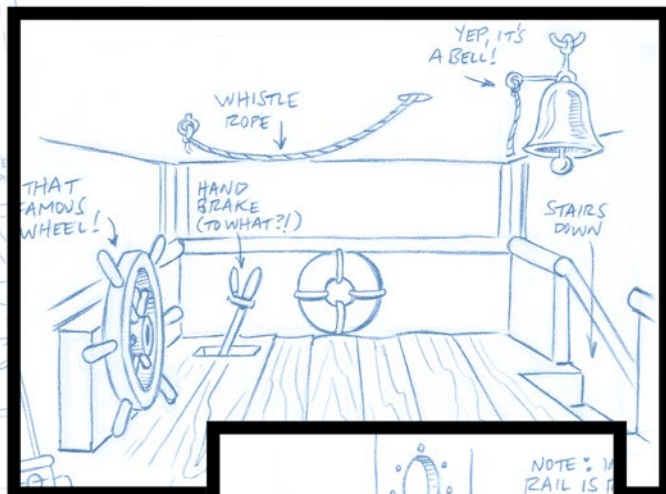

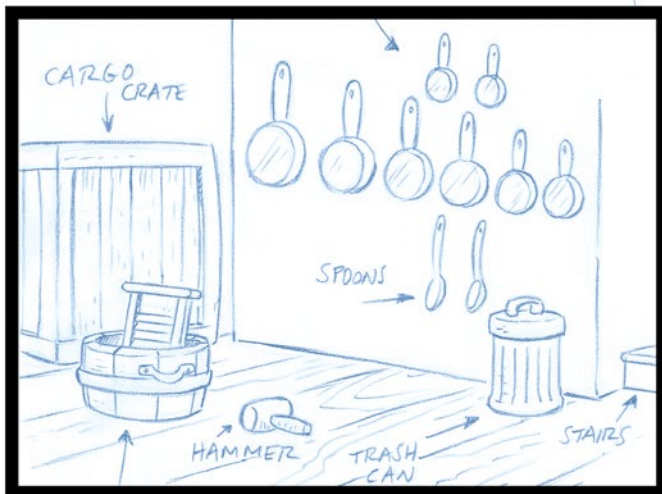

Steamboat Willie

Aucun doute, le film d'animation *Steamboat Willie*, réalisé par Disney en 1928, représente une série de premières culturelles et historiques importantes : il s'agit du premier film d'animation au son entièrement synchronisé, de la première bande sonore entièrement conçue en post-production, de l'un des premiers films entièrement conçus à partir de scénari-mages à être distribué, et de la première apparition publique de la souris culottée qui deviendra l'une des personnalités les plus appréciées au monde.

Dans son ensemble, *Steamboat Willie* constitue une avancée révolutionnaire dans le monde du cinéma.

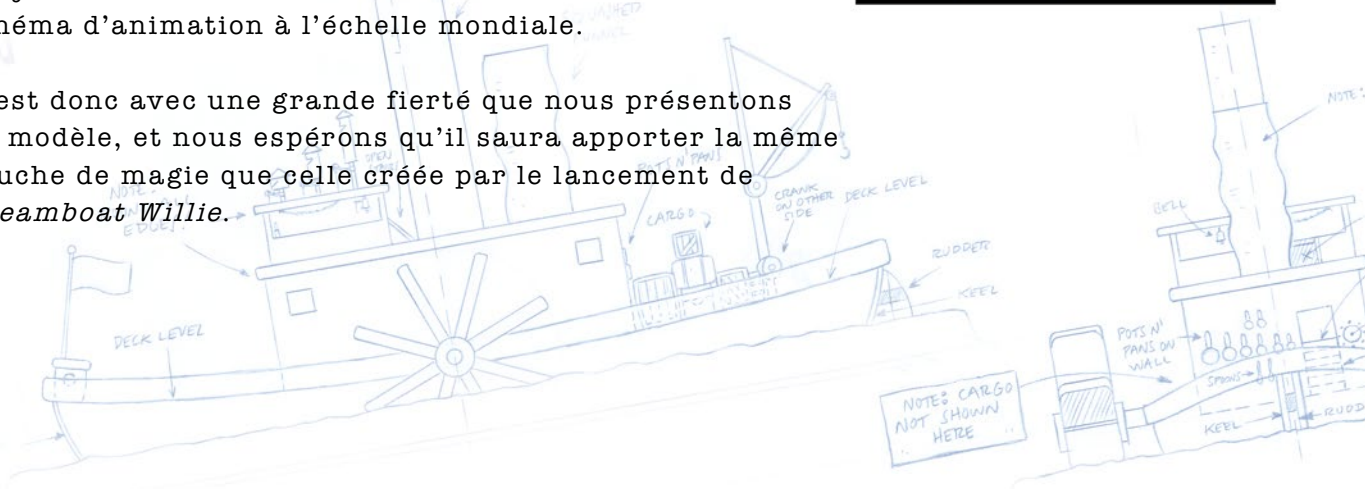

Mais, plus encore, ce court-métrage d'animation en noir et blanc révèle la créativité et la détermination de Walt Disney, deux qualités également intégrées dans la philosophie qui se trouve derrière LEGO® Ideas.

Disney était convaincu que le son renforcerait l'esprit de magie et d'humour du cinéma d'animation... et il a eu bien raison. Son sens de la narration et sa soif d'innovation technique sont les fondements de sa réussite et de sa renommée internationale, de même que celle de Mickey Mouse. 90 ans plus tard, la Walt Disney Company est toujours chef de file en narration et en innovation du cinéma d'animation à l'échelle mondiale.

C'est donc avec une grande fierté que nous présentons ce modèle, et nous espérons qu'il saura apporter la même touche de magie que celle créée par le lancement de *Steamboat Willie*.

Les coups de cœur de Máté

Ensemble LEGO® :

La rue principale (6765), parce qu'il est très jouable et qu'il cache un tas de surprises.

Élément :

La plaque LEGO ronde 1 x 1 (85861) à tenon ouvert est très pratique, car elle permet de relier des conduits, des plaques et d'autres types de briques.

Concepteur LEGO :

Les concepteurs du Lamantin de Barbe de Métal, Michael Fuller, Jordan David Scott et Chris Stamp.

Concepteur amateur/de la communauté :

Entre autres, Kevin Szeto, le créateur de LEGO Ideas qui a conçu le Yellow Submarine des Beatles.

Rencontre avec les concepteurs

Máté Szabó, concepteur amateur, Budapest, Hongrie

Máté est un dessinateur d'animation professionnel qui adore tourner et produire des vidéos et, bien sûr, réaliser des créations LEGO®. Jetez un œil à son compte Instagram : @szabolego.

« J'adorais jouer avec les briques LEGO lorsque j'étais enfant, et j'aime toujours autant la façon dont fonctionne le système. Cela m'apprend réellement à voir plus loin que le bout de mon nez.

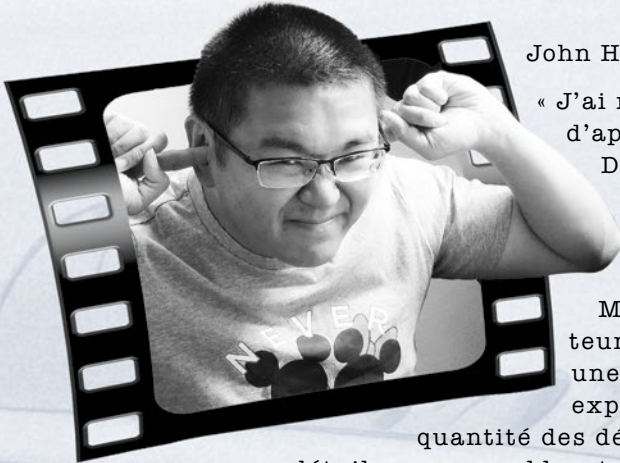

Je me sens inspiré par les personnages, les films d'animation et les autres films de Disney et j'ai voulu rendre hommage aux brillants artistes qui créent ces chefs-d'œuvre. Quand j'ai vu la figurine de Mickey Mouse classique dans la série des figurines de Disney, j'ai pensé à *Steamboat Willie*.

En créant le modèle, j'ai regardé le court-métrage autant de fois que j'ai pu et j'ai cherché des dessins de référence pour y rester fidèle. J'ai néanmoins dû réduire le nombre d'éléments à inclure dans le modèle pour garder une certaine simplicité. La partie la plus difficile a été la coque du bateau, que j'ai essayé d'arrondir le plus possible. Il a fallu environ 3 mois pour créer le modèle, à coup de quelques heures de travail par jour.

C'est un honneur incroyable d'avoir réussi à atteindre le nombre magique de 10 000 votes. La partie la plus dure est venue après l'étape des 5 000 votes. C'était un véritable défi à relever, car nous avons alors seulement 44 jours avant la date limite. Je tiens sincèrement à remercier toutes les personnes qui ont contribué à cette réussite.

Aux membres de la communauté LEGO Ideas, mon conseil est de rester vous-mêmes et de créer des choses qui vous intéressent et que vous aimez. C'est tout. »

John Ho, concepteur LEGO®

« J'ai regardé *Steamboat Willie* à l'université et j'ai été surpris d'apprendre qu'il s'agissait du premier film d'animation de Disney au son synchronisé, en plus d'être la première apparition de Mickey Mouse à l'écran. J'espère pouvoir transmettre ce moment d'étonnement et d'émerveillement à tous ceux qui construiront ce modèle.

Mon travail consiste à traduire les propositions des amateurs de LEGO® Ideas en un excellent produit LEGO qui offre une construction agréable, des détails uniques et une expérience de jeu amusante. Ce modèle comprend une grande quantité des détails créatifs de l'original. Le défi était de reprendre ces détails remarquables, tout en ajoutant une fonction au modèle. C'est si amusant de pousser le modèle pour voir le mouvement des roues à aubes et des cheminées !

Steamboat Willie constitue un jalon très important dans l'histoire de l'animation de Disney, donc c'était pour moi un honneur de le représenter en briques LEGO. C'est pourquoi chaque jour de travail m'a paru unique et spécial. »

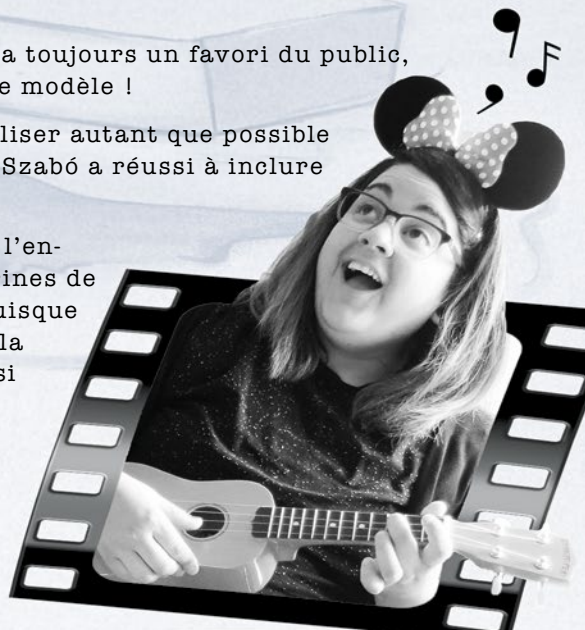

Crystal Bam Fontan, graphiste LEGO

« *Steamboat Willie* est un classique intemporel et Mickey sera toujours un favori du public, alors j'étais ravie de pouvoir contribuer à la conception de ce modèle !

Comme graphiste LEGO, mon travail consiste à tenter de réaliser autant que possible les rêves du concepteur amateur au niveau graphique. Máté Szabó a réussi à inclure beaucoup de détails dans sa proposition.

Nous avons ajouté Minnie et plusieurs éléments décoratifs à l'ensemble. La partie la plus difficile a été de concevoir les figurines de Mickey et de Minnie de manière à ce qu'ils se démarquent puisque ce sont les personnages principaux. J'ai décidé d'ajouter de la vivacité grâce à des détails argentés sur les accessoires ainsi que sur le bateau Willie pour lui donner encore plus d'éclat !

Nous avons aussi voulu faire un autre clin d'œil au court-métrage en intégrant la chèvre du film à la feuille de musique décorée. »

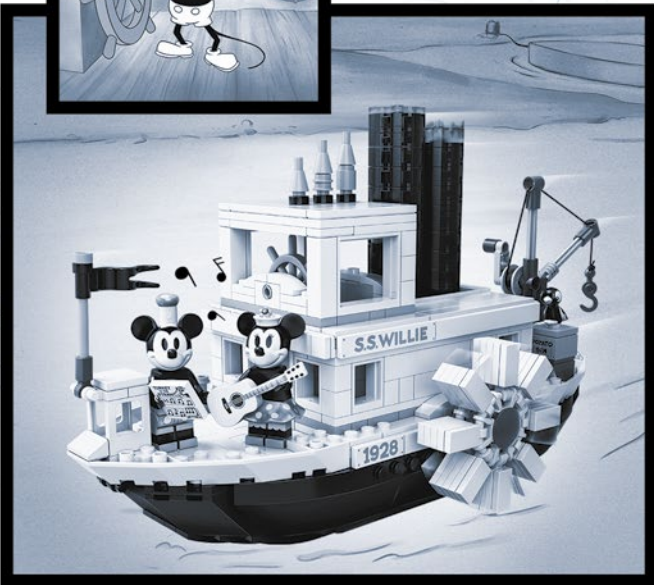

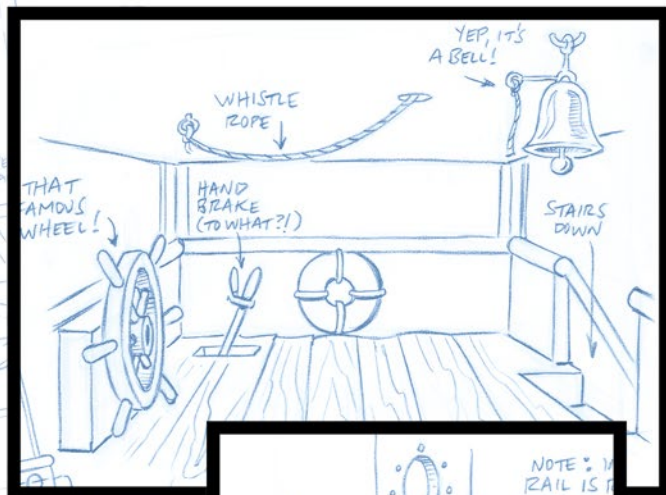

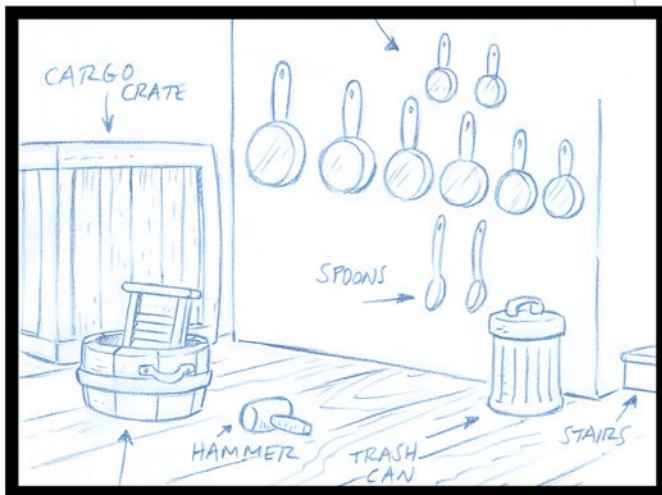

El Barco De Vapor Willie

El cortometraje de dibujos animados *El Barco De Vapor Willie*, estrenado por Disney en 1928, fue sin duda notablemente pionero en los ámbitos cultural e histórico: hablamos no sólo de la primera caricatura con sonido totalmente sincronizado, la primera banda sonora totalmente postproducida y una de las primeras películas que partió de un guion gráfico y fue finalmente distribuida, sino también de la primera aparición pública de un alegre ratoncito que se convertiría en uno de los personajes más entrañables del mundo.

En definitiva, *El Barco De Vapor Willie* fue un logro revolucionario en el mundo del cine.

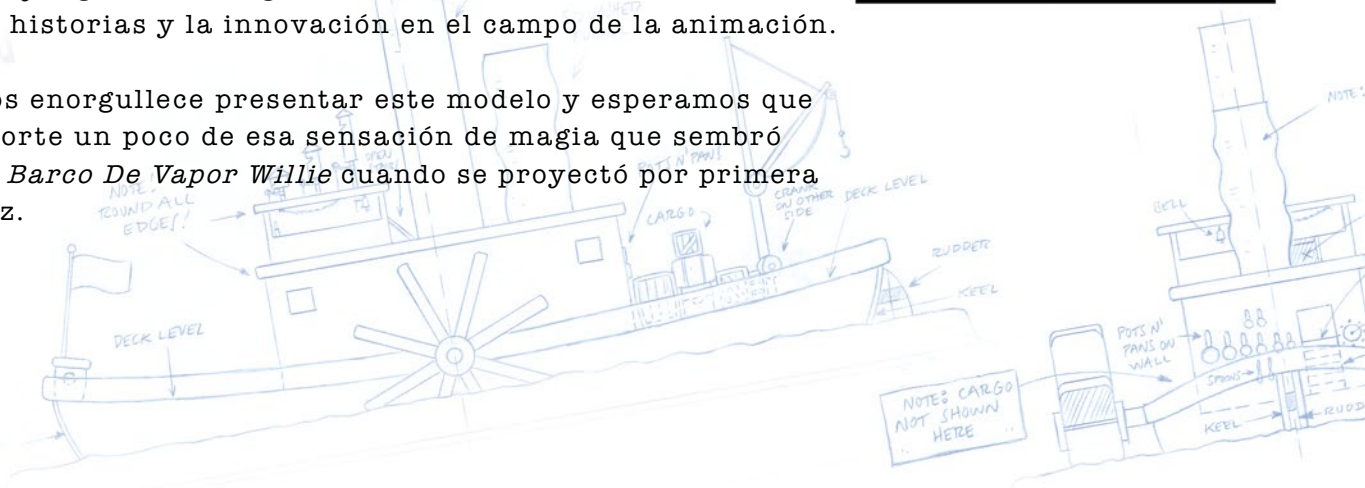

Pero, por encima de eso, esta breve historieta animada en blanco y negro representa la creatividad y la determinación de Walt Disney, dos cualidades que también forman parte de la filosofía en la cual se fundamenta LEGO® Ideas.

Disney estaba convencido de que el sonido aportaría una auténtica sensación de magia y humor a los dibujos animados, y vaya que así fue. Su sentido de la narración y su afán por la innovación técnica se impusieron e hicieron mundialmente famosos tanto a Walt Disney como a Mickey Mouse. 90 años después, The Walt Disney Company sigue a la vanguardia internacional de la narración de historias y la innovación en el campo de la animación.

Nos enorgullece presentar este modelo y esperamos que aporte un poco de esa sensación de magia que sembró *El Barco De Vapor Willie* cuando se proyectó por primera vez.

Los favoritos de Máté

Set LEGO®:

Main Street (6765), porque ofrece muchas posibilidades de juego y contiene un montón de sorpresas ocultas.

Elemento:

La placa redonda con espiga abierta LEGO 1x1 (85861) es muy útil, porque permite unir ejes, placas y bricks de otros tipos.

Diseñador de LEGO:

Michael Fuller, Jordan David Scott y Chris Stamp, los diseñadores de la Vaca Marina de Barba Metálica.

Fan diseñador/diseñador de la comunidad:

Entre otros, Kevin Szeto, creador del Submarino Amarillo LEGO Ideas inspirado en los Beatles.

Conoce a los diseñadores

Máté Szabó, fan diseñador, Budapest (Hungría)

Máté trabaja como animador profesional; le encanta grabar y editar videos y, por supuesto, construir con LEGO®. Visita su cuenta de Instagram: @szabolego.

“Me encantaba jugar con mis bricks LEGO cuando era pequeño y todavía me fascina cómo funciona el sistema. Me enseña muchísimo sobre cómo pensar en contextos más amplios.

Para mí, los personajes, las caricaturas y las películas de Disney son una fuente de inspiración. Quería rendir homenaje a los brillantes artistas que crearon esas obras maestras. Cuando descubrí la minifigura de la versión clásica de Mickey Mouse en la edición Disney de la colección Minifigures, me puse a pensar en *El Barco De Vapor Willie*.

Durante la creación del modelo, volví a ver el corto tantas veces como pude y busqué planos para lograr la máxima precisión. Pero también tuve que reducir el número de elementos y simplificarlo un poco. Lo más difícil fue recrear el casco del barco, que traté de hacer lo más redondo posible. Dedicué alrededor de 3 meses a completar el modelo, trabajando en él un par de horas al día.

Fue un extraordinario honor alcanzar la cifra mágica de los 10.000 votos. La parte más difícil vino después de superar la marca de los 5.000. Fue un verdadero esfuerzo porque sólo quedaban 44 días para la fecha límite. Quiero dar las gracias de corazón a todos los que participaron.

Para los miembros de la comunidad de LEGO Ideas, mi consejo es que sean ellos mismos y creen algo que les interese y les apasione. Esa es la clave”.

John Ho, diseñador de LEGO®

“Vi *El Barco De Vapor Willie* cuando estaba en la universidad y me sorprendió que fuera la primera historieta animada de Disney con sonido sincronizado y la primera aparición de Mickey Mouse en la pantalla. Espero que todo el que construya este modelo experimente también ese momento de admiración y asombro.

Mi trabajo consistió en transformar la extraordinaria propuesta LEGO® Ideas del fan en un magnífico producto LEGO cuyo flujo de construcción resultara agradable y que ofreciera detalles exclusivos, así como una experiencia de juego divertida. Numerosos detalles del original están representados con creatividad en el modelo. El desafío era incorporar funciones sin dar la espalda a esos fabulosos detalles. ¡Es muy divertido empujarlo y ver cómo se mueven las ruedas de paletas y las chimeas!

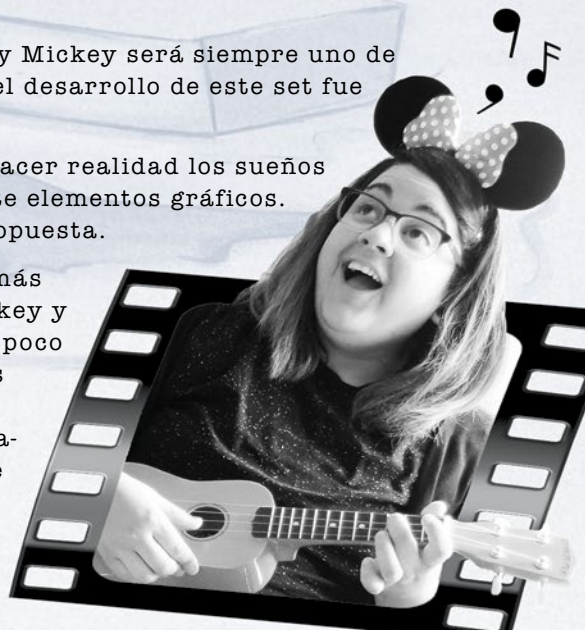

El Barco De Vapor Willie representa un hito de gran importancia en la historia de las obras de animación de Disney; recrear el barco con bricks LEGO fue un honor que convirtió cada jornada de trabajo en un día único y especial”.

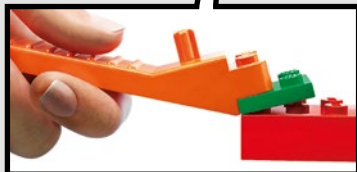

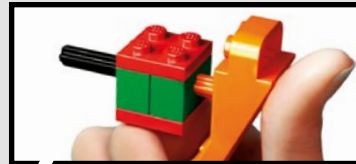

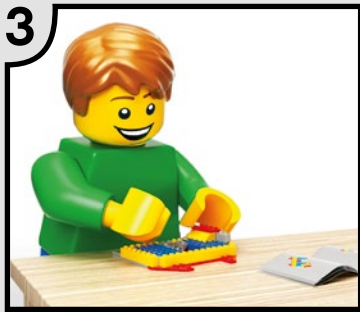

Crystal Bam Fontan, diseñadora gráfica de LEGO®

“*El Barco De Vapor Willie* es un clásico de todos los tiempos y Mickey será siempre uno de los personajes favoritos de los fans, ¡así que formar parte del desarrollo de este set fue un gran honor!

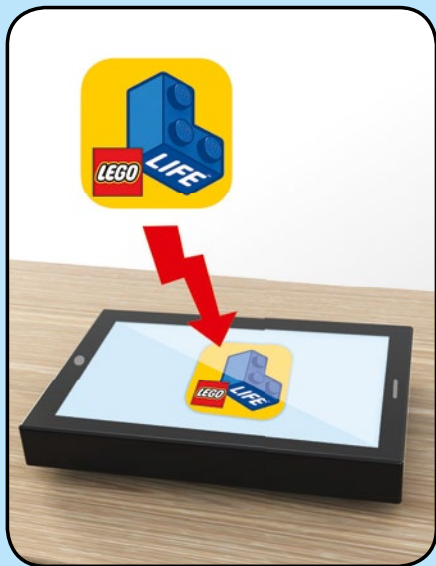

Como diseñadora gráfica de LEGO®, mi trabajo consistió en hacer realidad los sueños del fan diseñador en la medida en que podía hacerlo mediante elementos gráficos. Máté Szabó logró incorporar un montón de detalles en su propuesta.

El set incluye a Minnie y diversos elementos decorados. Lo más complicado fue hacer que destacaran las minifiguras de Mickey y Minnie, pues son ellos los protagonistas. ¡Decidí agregar un poco de dinamismo extra con detalles plateados en sus accesorios y en el propio barco de vapor para que el set llamara más la atención! Si quieren saber un secreto divertido, la cabra del corto forma parte del elemento decorado que representa la partitura”.
